

Mini *Waterproof* Digital Video Recorder

Frontier Action Camera FTDVR3

The FTDVR3 is ideal for hands free video capture of the fast paced excitement of any hunting or fishing trip. It is also suited to kayaks, trailbikes snowsports & all outdoor pursuits. Arguably one of the smallest video cameras of its type available on the market, the camera is 7cm long and weighs a mere 22gms. This camera unit is fixed securely to the headband provided via a custom designed velcro strap and a second band is provided which is suitable for attaching the camera to other equipment such as a backpack, bow, trailbike, scope or ski goggles.

Video is recorded in stereo AVI format at 30fps and features 4 GB of internal memory which will record and store up to 2hrs of video. The unit is waterproof to 1m and power is supplied by an internal battery which is recharged via the USB cable provided. The video is extremely simple to use and once the footage is recorded it is simply connected to the computer and the files are downloaded ready for viewing, editing, emailing or uploading to the internet.
