

Alpine Stalker Bivvy Bag

Proudly Australian made and custom designed from the input of hunters with years of combined experience in backpack hunting using bivvy bags throughout Australia and New Zealand, the Alpine Stalker Bivvy Bag's rugged simplicity, minimal weight and bulk combined with its many customised features make it the ultimate lightweight shelter suitable for any hunting location. Used in conjunction with an appropriately rated sleeping bag and mattress, the bivvy bag's flexible pitching options will provide true 4 season protection, tough enough to endure the worst of an Alpine winter, or the heat and insects of Northern Australia. An outstanding list of customised features clearly set this bag apart from others on the market.

Features:

- Tapered design for minimal weight and bulk
- 100mm high bucket sides to entry area to keep out mud and moisture and protect your sleeping bag.
- Multiple pitching loops located at the top, over the head and at the feet create different pitching options to maintain circulation and breathability when required and keep the top panel away from your face.
- Extended side zipper for quick and easy access into and out of the bag
- Fully waterproof
- Fully seam sealed
- Ultra tough and lightweight breathable Breatex fabric
- YKK Zips
- Designed and made in Australia

Specification:

- Dimensions: 2100mm long x 850 wide at the top tapering to 450mm wide at the feet
- Rolled Dimensions: 250mm long x 120mm in diameter
