

Stalker Fly FA-F2

Moroka.30's range of lightweight fly's provide ideal shelter options for both backpack and base camp hunts. Available in three different sizes, the fly's create multiple shelter options that are both small enough to provide a minimal additional shelter for a solo backpack hunter and gear, or large enough to provide effective protection for multiple hunters in a larger base camp set up. Manufactured from strong and durable 190t polyester, the fly's have many handy features for added practicality in the bush.

Features:

- The mid sized fly in our range
- Ultra lightweight and compact shelter designed to completely cover one hunter and gear comfortably or two hunters and gear at a stretch.
- Orange reflective guy ropes for clear visibility at night under torch light, no more dangerous tripping or "clotheslines" to the neck
- Olive green colour
- Includes 8 adjustable guy ropes in total, 3 on each 3.5m side, 1 one on each 2.6m side
- Corner guyropes fold away into convenient sewn in storage pockets to prevent tangles
- Heavyduty eyelets are sewn into reinforced nylon webbing, not fly material to reduce stress at eyelet points and increase durability
- Fully waterproof, fully taped seams and reinforced hems to all outer edges
- Carry bag included
