

# FEATHERTOP 1000 FA-FSB 1000

## Goosedown Sleeping Bag

The Moroka.30 range of Feathertop Sleeping bags feature 90/10 Goosedown filling with 650+loft and are the most competitively priced bags available in their class. 90/10 Goosedown is the purest form of Goosedown filling and it is superior in warmth and loft to duckdown. Goosedown offers maximum warmth with minimal weight, and here at Moroka.30 we understand first hand the extreme environments and conditions hunters have to endure so that is why our top line bag has a fill rate of 1000gms, one of the highest on the market, far exceeding the fill rates of other brands which stop between 800-900gms. The Feathertop 1000 offers one of the highest fill rates available on the market, guaranteed to give you the piece of mind and confidence when travelling ultra light throughout the worst of Alpine winter conditions.
