

Hornet

Lightweight Portable Liquid Fuel Stove

The Moroka.30 Hornet Stove is a compact lightweight 4 season stove suitable for sub-alpine and alpine environments. Weighing a mere 315gms (stove unit) the kit includes stove, bag, spares kit and fuel bottle. It is extremely simple to use and has wide folding legs for added stability and large pot base. It is ideally suited to backpack hunts at both lower elevations and up on the tops where freezing conditions make the effective use of gas stoves unpractical.

- Net weight 315gms
- Hi quality plastic pump
- Manufactured from high quality, lightweight copper alloy and stainless steel
- Wide support base and large cooking area via high strength folding arms
- 4 Season Alpine suitability
- Nylon carry bag included
- Includes **fuel bottle**, and spare part
