

Riverstalker 230

Australia has many untouched and unspoilt rivers and waterways which flow through prime public land readily available for seasonal hunting. Approaching these areas by water can provide exciting, enjoyable and easy access to remote hunting & fishing grounds previously inaccessible by vehicle or on foot.

Continuing with the adventure hunting spirit, Moroka.30 have created the *RIVERSTALKER 230*, which is a multi-purpose custom designed raft style inflatable boat that is ideally suited to both the paddling adventurer and the waterfowl hunter. The detachable motor bracket also allows for quick and easy attachment of a small outboard motor.

Designed to be tough and durable with strong 1100D PVC coated polyester fabric, the raft can accommodate two people and gear, and packs away small enough to stow in the boot or tray of any vehicle. Weighing in total 24kgs including oars, foot pump, seat, repair kit and tough inflatable floor, the *RIVERSTALKER 230* makes the ideal multi-purpose recreational raft.

FEATURES:

- 1.1mm Multi-layer 1100D PVC coated fabric
- High tensile inner polyester fabric offers dimensional stability and tear resistance
- Outer PVC Layer offers excellent waterproofing, high abrasion and chemical resistance, and high UV stability.
- Fixed oar mounts & oar holders for ease of rowing and storage of oars
- Two piece quick release take-down oars
- Heavy duty side mounted nylon grab ropes
- Pre attached mooring rope included
- Four layer reinforced seams
- Reinforced carrying handles
- Heavy duty non slip textured PVC inflatable Air mat Floor
- Includes Nylon carry bag, 2 oars, plywood seat, foot pump and repair kit
