

The Wedgetail Peregrine ED Series Spotting Scopes feature additional Extra Low Dispersion lenses to eliminate "chromatic aberration" or colour fringing, and deliver maximum focal sharpness, clarity and colour correction. Additional benefits of ED glass include its complete resistance to temperature changes, and also its inherent hardness and scratch resistance, making it ideal for use on the front lenses of hunting optics that are often subjected to harsh conditions in the field. The Peregrine ED Series also feature Wedgetails's Fully Multicoated & advanced Bak 4 prisms to deliver stunning edge to edge sharpness and clarity. The large angled eyepieces are ideally suited to hunting in steep terrain and dual speed focuser ensures quick and easy focusing at high magnification to provide an extremely comfortable glassing experience in all weather, all terrain, all temperature and differing light conditions.

### Features:

- ED lenses for stunning sharpness and clarity
- Waterproof & Fogproof
- Nitrogen filled and 100% O-ring sealed
- Twist up eyecup
- Rugged fine-textured rubber armour
- Strong ABS construction
- Dual speed focuser
- Large angled eyepiece
- Comfortable ergonomic design
- Advanced Bak 4 prisms
- Fully Multi coated
- Extendable sunshade
- Tripod, stand, lens covers, lens cloth and soft case included
- Optional "digiscoping" mount and professional tripod available
- Manufacturers limited lifetime warranty

### Specification:

Model	Field of View @ 1000m	Minimum Focus	Exit Pupil	Eye Relief	Length	Weight
WT-PED50 12-36X50	51-29m	3m	4.2-1.4mm	19mm	252mm	950mm
WT-PED60 15-45X60	49-23m	5m	4.0-1.4mm	20mm	351mm	1400mm
WT-PED65 15-45X65	46-21m	6m	4.5-1.5mm	20mm	378mm	1450mm
WT-PED80 20-60X80	37-17m	4m	4.0-1.3mm	20mm	453mm	2000mm
